

Evidence 10: XAI / GradCAM — NOT AVAILABLE

NOT AVAILABLE

GradCAM activation maps require model re-execution with `pytorch_grad_cam` hooked to EfficientNet-B1 backbone.

No pre-computed activation maps on disk.

Available for future generation:

- Checkpoint: `checkpoints/v3_v8_conv_fpr_best_weights.pth` (38MB)
- GradCAM lib in `venv_cuda_310`, `venv_cuda_311`
 - HDF5 samples in `2026/scalogram/`

To generate: Run model with GradCAM on `backbone.features` layer.
